

# RANA BEPERI

## LARAVEL DEVELOPER

**P** 01521380065

**E** [contact@rana.com.bd](mailto:contact@rana.com.bd)

**A** Mirpur 13, Dhaka-1216

**W** <https://rana.com.bd>

### OBJECTIVE

To secure a challenging position as a Laravel Developer in a dynamic organization where I can leverage my technical expertise, problem-solving skills, and software engineering background to contribute to organizational success while enhancing my professional growth.

### EDUCATION

SSC (Science)	Kalamridha Govinda High School, Dhaka Board	2015
HSC (Science)	Kabirajpur Saifuddin Degree College, Dhaka Board	2017
B.Sc. in ECE	Institute of Science, Trade & Technology National University	2021

### COMMUNICATION

I have over 2 years of freelance experience on Fiverr and 1.5 years of professional experience in various IT companies, specializing in client communication and project issue resolution. During this time, I have developed strong expertise in understanding client needs, discussing project requirements, and delivering high-quality solutions that consistently earned positive feedback on my Fiverr profile.

### LEADERSHIP

I mostly worked in team environments, but there was a project where I took responsibility to make sure deadlines were met. I coordinated tasks, helped teammates, and ensured we delivered on time. I'd describe it as teamwork with initiative, rather than formal leadership.

### KEY SKILLS

- HTML
- CSS
- JAVASCRIPT
- BOOTSTRAP
- PHP
- LARAVEL
- WORDPRESS

### CLOUD VPS

- AWS
- TIME4VPS
- HETZNER

## PROJECTS (PERSONAL & CONTRIBUTE)

### EGR SHOP | SINGLE-VENDOR E-COMMERCE

**EGR.COM.BD**

Summary: Developed an online platform for electronics, grocery, and raw products

My Role & Contributions:

- Built and maintained backend & frontend with Laravel
- Implemented product catalog, order system, and customer management
- Optimized database queries, reducing load time and improving user experience

**HETAT.COM.BD**

### HE TRAVEL AND TOURISM | VISA PROCESSING & AGENT MANAGEMENT

Summary: Web application to manage visa processing, travel agent information, and client data.

My Role & Contributions:

- Designed and developed full-stack solution with Laravel
- Integrated modules for visa applications, agent records, and reporting
- Ensured data security and role-based access control

### ORNAAS ECOMMERCE | MULTI-VENDOR E-COMMERCE PLATFORM

Summary: Scalable marketplace for multiple vendors to manage products and sales.

My Role & Contributions:

- Developed backend logic with Laravel
- Built vendor onboarding, product listing, and order tracking modules
- Designed APIs for vendor management and customer order processing

## **CLOUD PACS | MEDICAL IMAGING & REPORTING SYSTEM**

Summary: Healthcare system for managing CT, MR, and X-Ray study reports with DICOM integration.

My Role & Contributions:

- Architected and developed multi-role access system
- Integrated DICOM standard for medical imaging compatibility
- Built reporting and storage modules for healthcare professionals

**SHATRONGGETNTSPARLOUR.COM**

## **SHATRONG GENTS PARLOUR | SERVICE BOOKING & TRAINING WEBSITE**

Summary: Online platform for salon services, bookings, and training course registrations.

My Role & Contributions:

- Designed appointment booking system with Laravel
- Built training center management and admin dashboard
- Integrated payment options for service reservations

**EXMAPP.CLOUD**

## **EMONEY TRACKER | PERSONAL EXPENSE MANAGEMENT APP**

Summary: Android app with companion landing page for tracking income and expenses.

My Role & Contributions:

- Developed Android application with expense categorization
- Designed Laravel backend APIs for data synchronization
- Built responsive landing page for app promotion

**KHAGRASURIPROTIDIN.COM**

## **KHAGRASURI NEWS PORTAL | ONLINE NEWS WEBSITE**

Summary: Local online newspaper with editorial and publishing features.

My Role & Contributions:

- Developed backend CMS for content creation and publishing
- Optimized site performance for high traffic
- Built user-friendly admin panel for editors

**JHIRUN.COM**

## **JHIRUN ECOMMERCE | SINGLE-VENDOR E-COMMERCE**

Summary: Online shopping platform for retail business.

My Role & Contributions:

- Full-stack development with Laravel
- Built catalog, cart, checkout, and admin dashboard
- Integrated secure payment gateway

## **MULTIPLAYER LUDO BACKEND | GAME API DEVELOPMENT**

Summary: Real-time backend for multiplayer Ludo with Unity integration.

My Role & Contributions:

- Designed and developed REST APIs with Laravel
- Implemented matchmaking, game state management, and user authentication
- Collaborated with Unity developers to ensure seamless gameplay

## **STORE MANAGEMENT SOFTWARE | STOCK & REQUISITION SYSTEM**

Summary: Software for inventory control and requisition management.

My Role & Contributions:

- Architected system modules for stock entry, requisitions, and reporting
- Built backend using Laravel with efficient data workflows
- Implemented user role management and auditing features

## **CARBOOK TEST WEBSITE**

### **CARBOOK – RENTAL & TOUR BOOKING SYSTEM**

Summary: Web platform and admin panel for car rentals and tourism bookings with real-time bidding, integrated with Flutter mobile apps.

My Role & Contributions:

- Developed web application and admin panel in Laravel for bookings, events, and partner management
- Integrated APIs for real-time bidding and synchronization with customer & driver apps
- Handled database design, authentication, and phone verification
- Assisted in deployment and testing, ensuring smooth delivery
